

A person wearing a bright yellow sweater is seated at a wooden table. The table is set with a plate of appetizers, several glasses of drinks, and two potted plants. The scene is warmly lit, suggesting a holiday gathering. The background is softly blurred, focusing attention on the table and the person.

Why Bloomscape?

We're here to help you strengthen your relationship with your organization's most important people. Give with more meaning this holiday season! Plants make life better and we make gifting plants easy.

SUSTAINABILITY

From paper packaging to biodegradable plastic, sustainability is vital to us! Our Ecopots contain up to 80% recycled plastics, mostly harvested from the ocean.

A LIVING GIFT

Plants are inclusive, long-lasting, air-purifying, and actively growing gifts that anyone and everyone can enjoy—they're proven to make people happy!

THE GROW-HOW®

Our experts provide complementary tips, tricks, and guidance to all your gift recipients, ensuring an engaging and successful plant parent journey.

Choose Your Ecopots Color

When we discovered Ecopots, we knew it was a perfect match. This boutique company not only shared our Dutch heritage but also impressed us with their commitment to sustainable materials. Every single Ecopots and saucer uses up to 80% recycled plastics, much of which is harvested from the ocean. Plus, Ecopots has obtained the certification of CO2 Neutral Product, so for every CO2 Ecopots emit, they compensate, for example, by planting trees.
